

**HEALTH EQUITY SOLUTIONS
2021 Listening Sessions!**

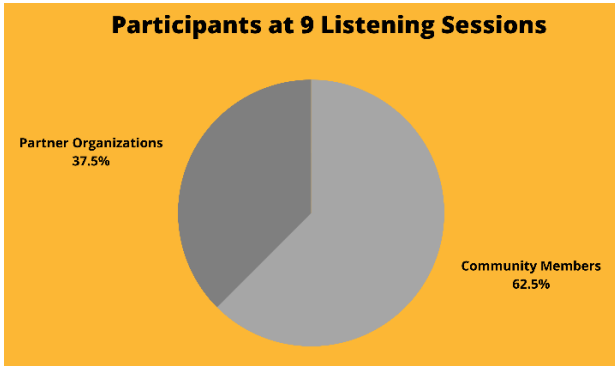

To inform our 2022 policy agenda, Health Equity Solutions conducted 9 listening sessions (8 virtual & 1 in person) and an online survey across Connecticut, with a total of 128 participants from 37 towns/cities. Participants discussed the issues they saw as most important when thinking of health equity and health care and how, if at all, the pandemic has changed their thoughts about what is most needed to achieve health equity in Connecticut.

Listening Sessions 2021: Major Topics Discussed

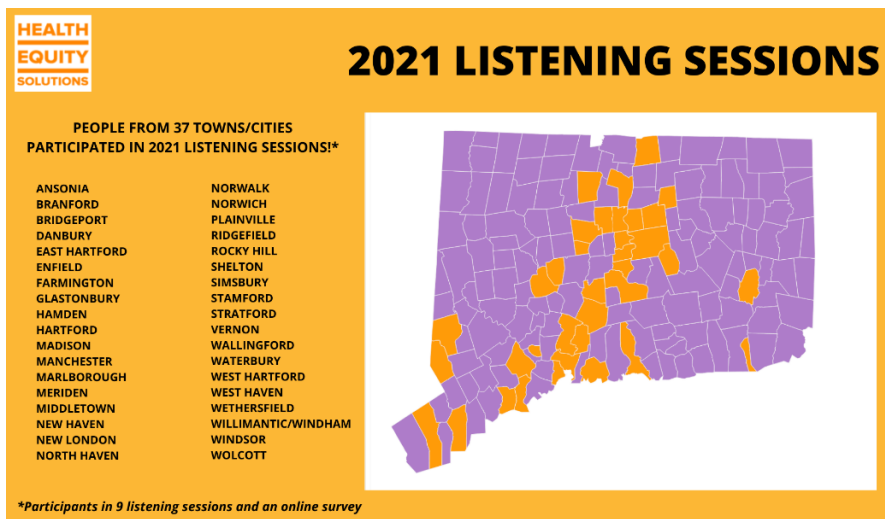

* 125 out of the 128 participants responded to a poll. We asked participants to name their top priorities.

**2021 Listening Sessions!
DEMOGRAPHICS**
